

Agatino MURSIA, Head of Simulation & Training Unit in the Digital Solutions & Infrastructure Department - Leonardo S.p.a.

Agatino MURSIA, currently with Leonardo S.p.a. as Head of Simulation & Training Unit in the Digital Solutions & Infrastructure Department, has been working since 1989 in the industry, in different positions from Engineering, Research and Development, Business Development and CTIO, in Italy and in the USA.

From March 2013 he is the National Industrial Member of the NATO STO M&S STC (former NMSG) representing, until now, Italy in that context. He is a former Chairman of the NMSG (position hold from 2018 to 2020 - first time for an Italian to assume that position) and he also acts as NIAG Liaison Officer (NLO) for M&S STC.

In the European scenario he is a Non-Governative National member of the EDA CapTech Simulation and is coordinating the Leonardo and Italian participation to the EDF project FEDERATES aiming at realizing the first European MSaaS Ecosystem.

In his actual position in the Leonardo Corporate HQ he is fostering and supervising the Digital Transformation of Leonardo Simulation products into Simulation Services available over the cloud, 24/7 on demand and HPC enabled.
